For General Contracting

HI THERE!

Asas Juzur Construction Company provides general contracting services with a commitment to providing the highest levels of quality. We believe that our success depends on customer satisfaction, and we strive to deliver distinguished projects that meet your needs. We are here to support you in every phase of the project, from construction and building to architectural design and rehabilitation. Contact us to build long-term relationships and achieve your ambitions in your next project.

ABOUT COMPANY

Asas Juzur Construction Company was established in 1995, as part of a strategic vision aimed at meeting the growing needs of the global market in the field of general contracting. Since the beginning of its activity, the company has gained a strong reputation for its commitment to quality and excellence, which has contributed to building a wide customer base. The company is considered one of the first companies to enter the Saudi investment market by providing innovative and effective solutions in the fields of construction and building.

Over the years, Asas Juzur Construction has achieved many notable accomplishments, such as executing mega projects in various sectors, including residential, commercial and industrial. The company has invested in developing its technical capabilities and continuously improving its operations, which has helped it adapt to the constant changes in the market. The company's achievements are not limited to completing projects only, but also include improving the skills and preparation of human resources as part of its strategy for sustainable growth.

General Manager MESSAGE

Our company is proud to provide the best innovative services. The company's services include the construction of residential and commercial buildings, as it seeks to achieve innovative designs to meet market needs. Residential projects are one of the most important pillars of the company's activity, as it implements projects ranging from villas, apartments, and residential buildings that reflect the beauty of practical and artistic use.

In addition, the company provides infrastructure services, which include the completion of roads, bridges, water and sewage networks. The company has extensive experience in this field, which enables it to deal with projects of high complexity and meet the required quality standards. These projects also contribute to improving traffic and enhancing communication between different areas, which is an essential part of urban development.

Asas Juzur Al-Binaa Company also provides integrated consulting services to help clients make strategic decisions related to their projects. Consultations include urban planning, feasibility analysis, and project management, enabling clients to obtain accurate professional advice that contributes to improving the results of their projects.

VISION & MISSION

Vision

Asas Juzur Construction Company seeks to achieve clear and sustainable visions for the future, focusing on expanding in the Saudi market and neighboring countries. The company adopts a comprehensive strategy aimed at strengthening its leadership position in the general contracting sector by investing in innovations and modern technologies. Modern construction methods and information technology are essential elements that the company seeks to introduce into its upcoming projects, which contributes to improving efficiency and increasing the quality of work.

Mission

The future vision of Asas Juzur Construction Company is based on innovation and modern technology, which ensures that it achieves its strategic goals and meets the growing demand for contracting services in the Kingdom of Saudi Arabia and the Arab world in general.

OUR SERVICE

Quality standards are one of the fundamental pillars that distinguish Asas Juzur Al-Binaa Company in the field of general contracting. The unwavering commitment to these standards is not just a level of business performance, but rather an integrated philosophy through which the company seeks to achieve the highest levels of satisfaction among its clients and contribute to the success of their projects. Asas Juzur Al-Binaa Company adopts a comprehensive approach to quality assurance by applying strict standards at all stages of work, starting from planning to implementation and final delivery.

Company services in the field of construction

Asas Juzur Al-Binaa General Contracting Company provides a variety of services in the field of construction, including basic and executive construction works for new projects. One of the basic services is the construction of cement and concrete structures, which are the backbone of any construction project. The company ensures the use of high-quality materials and advanced technologies, which contribute to achieving the strength and durability of the structure.

In addition, the company provides infrastructure services, which include the construction of roads, bridges and public facilities. The importance of these services is to ensure the provision of a strong and safe foundation that enables the future expansion and development of the region. Modern technologies are used, such as advanced construction project management systems, which focus on planning and implementing projects efficiently.

The company is also interested in external installations, as it provides integrated services related to roofs, windows and doors, as part of the complementary works. These installations are an essential part of protecting buildings and improving their attractiveness. The company applies follow-up and monitoring systems to ensure the quality of implementation and adherence to international standards, and conducts periodic inspections during each stage of work.

The team at Asas Juzur Construction Company is keen to maintain safety standards during the construction process, where workers are continuously trained and the necessary safety equipment is provided. All these areas come together to achieve the company's vision of providing value-added construction projects that match customer expectations and market aspirations. Quality, safety, and modern technologies are the main axes in every project adopted by the company.

OUR SERVICE

The company's services in the field of finishing

Finishing services are considered one of the vital elements provided by Asas Juzur Al-Binaa General Contracting Company, as they play a pivotal role in enhancing the aesthetics and effectiveness of completed projects. The finishing process allows for the final touches that raise the level of the project, whether in the residential or commercial field.

The finishing services provided by the company include a variety of types, such as interior and exterior, which revolve around meeting the different needs of customers. For example, interior finishes include painting works, flooring installation, ceramics, and furniture. While exterior finishes include facade installation, insulation, and decorative works that enhance the attractiveness of buildings.

The company benefits from the use of advanced materials and techniques that contribute to achieving the desired results. For example, innovative techniques are used in painting and finishing processes that enhance the strength of the materials used and increase their lifespan. In addition, the company seeks to include the latest designs and trends in the construction market, reflecting the quality of work and continued excellence.

The importance of good finishing lies in the fact that it not only adds beauty to the project, but is also a decisive factor in the success of the entire project. Professional finishing makes the environment inside the buildings more attractive and comfortable, which directly contributes to customer satisfaction and reflects the company's improvement in the level of its services. To achieve this goal, Asas Juzur Al-Binaa Company invests huge efforts in ensuring that all its projects come with high-quality finishes, making it one of the leading companies in this field.

OUR GOALS

The company aims to continuously innovate and find unique solutions that match market aspirations and customer needs. This is evident in the use of the latest technologies and materials in implementing projects, which enhances their effectiveness and efficiency. The company has succeeded in establishing its reputation in this field by achieving distinguished projects, as it has set its sights on quality and professionalism in completing each project.

The corporate culture at Asas Juzur Construction is built on solid values such as collaboration and sustainability, enabling it to remain at the forefront of the general contracting sector. Through a constant focus on skills development and re-skilling of workers, the company ensures that it delivers services that exceed its clients' expectations and strengthens its position in the market.

Yeni Kadıköy İskelesi

Günümüzde sahile düzensiz bir şekilde yayılmış motor iskeleleri ve Karaköy-Eminönü Vapur İskelesi'nin çağdaş teknoloji ve kentsel tasarım anlayışına uygun olarak yeniden tasarlanarak, bütün ulaşım modlarının bir araya geldiği nitelikli bir Transfer Noktası haline getirilmiştir.

Yeni Kadıköy İskelesi olarak tanımlanacak ve 'geçiş meydanı' işlevi taşıyacak bu sert zeminli kamusal alan, salt yoğun ulaşım fonksiyonlarını karşılamakla kalmayıp aynı zamanda kafe-büfe-dinlenme-buluşma alanları vb. kullanıcıların günlük rekreasyon ihtiyaçlarını da karşılayacaktır. Bununla beraber İşlek Kıyı Bandı ile arkasındaki canlı Kentsel Doku arasında sağlıklı ve nitelikli bir geçiş alanı görevi görecektir.

About Us

Who are we?

Brief history of the company (2 years on the market)

Company mission: Ensuring safety and caring for health

Core values: quality, reliability, individual approach

Wide range of iodine products

➤ Alcohol solution of iodine (1-10%)

Effective antiseptic for veterinary medicine.

An alcohol solution of iodine has an antimicrobial, irritating, distracting effect, and accelerates wound healing

Alcoholic Iodine Solution					
№	Name	Types of Products			
		1%	2%	5%	10%
1	Ethyl alcohol, %	49,3	48,6	46	43
2	Iodine, %	1	2	5	10
3	Pure water, %	49,3	48,6	47	43
4	Potassium Iodide, %	0,4	0,8	2	4

➤ Lugol's solution (1-10%)

Wide range of applications

A topical drug that is widely used to treat diseases of the throat and oral cavity. The solution consists of iodine and potassium iodide, which have anti-inflammatory and antiseptic properties. Lugol's helps reduce inflammation and stop bacterial growth.

Lugol's Solution					
№	Name	Types of Products			
		1%	2%	5%	10%
1	Appearance	Corresponds			
2	Iodine, %	1	2	5	10
3	Pure water, %	97	94	85	70
4	Potassium Iodide, %	2	4	10	20

Modern production, high quality

Modern production: The equipment allows us to produce up to 480 tons of products per month. Strict quality control, confirmed by Turkmenstandartlary certificates.

High production capacity: 2 tons of products in just 3 hours. Production complies with international quality standards.

Advantages of our production:

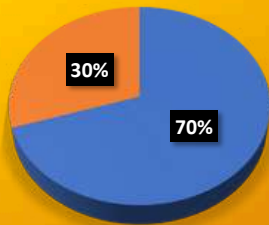

➤ **High performance**

☉ **Compliance with international standards**

Product quality

We are proud to be able to offer our customers the highest quality products, manufactured using modern equipment and in accordance with international standards.

About the company

The OWRAM company, founded in 2019 by entrepreneur Golliyev Eziz Guvanjovich, has an impressive production capacity of 1,530 tons of products per year. The raw materials necessary for manufacturing are purchased from foreign companies, and the finished product is sold on the domestic market. Thanks to this, OWRAM occupies one of the leading places in sales of its branded products.

Our Advantage:

- **Variety of Flavors:** We offer a wide range of flavor combinations to cater to the diverse tastes of our consumers. From salty and sesame-flavored cracker sticks to garlic, onion, and paprika croutons, and from vanilla and cream cookies to condensed milk and cocoa flavors – everyone will find their favorite taste.
- **Quality and Freshness:** Our products are made from carefully selected ingredients using modern technologies, ensuring high quality and taste preservation. We guarantee the freshness of every product.
- **Variety of Packaging:** We offer various packaging options to meet the needs of different markets. From small portions for single consumption to large packs for families and restaurants.
- **Competitive Prices:** We strive to offer competitive prices to our partners to help them increase sales and achieve high profits.
